

## MESSAGE FROM THE MAYOR

# PORT WASHINGTON 2012 SUMMER NEWSLETTER

Dear City Residents:

I write this to you as we move into the heart of Summer in our great city of Port Washington – and what an interesting Summer it has been already! The 4th of July holiday has come and gone, and the parade, family activities, and fireworks were all a huge hit. It is hard to believe Fish Day is nearly upon us, and with it, August lies on the horizon. As always, the Summer months are busy and festive and memorable ones in Port Washington – which is perhaps why they seem to fly right on by!

The mid-point of the month of July also marks for me the three-month mark of my tenure as Mayor. During this time, I've had the pleasure of meeting so many of you already, and I look forward to having the opportunity to meet those I haven't soon. As I said repeatedly throughout the campaign and once more during my welcome remarks to the city after taking the oath of office, ours is indeed a great city – and I absolutely believe all of you are a big part of why that is the case! Whether you are a member of our city staff; a business or property owner; a volunteer; or consider yourself to be “just a resident,” I want to thank you for all you have done, and continue to do, to help make Port Washington the great city we all know it to be. Each of the 11,000+ warm, welcoming people who call it home and are willing to serve as its cheerleaders to others truly do make a difference!

For all of us in Port Washington there are so many things for us to be cheering about these days! Thanks in part to grant funding secured by our city staff, work continues on the exciting and unique Coal Dock project, with infrastructure improvements enabling next year's opening to the public. A number of new businesses continue to open downtown and a number of businesses in our industrial park continue with expansion plans. The former Smith Brothers building is coming alive as Duluth Trading Company continues with its preparations for an early Autumn opening. The Historical Society continues with its work on one building downtown, and thanks to an incredibly generous anonymous gift, also is making plans for a future home in a second historic building. And recently, we've celebrated the purchase of and announced renovation plans for the Boerner Department Store (Lueptow) Building, representing an inspiring investment in and partnership with our city by Daniel and Marie-Anne Ewig. With that announcement came a second bit of wonderful news – Red Fusion Studios is expanding operations, consolidating its advanced technology group, and adding jobs in Port Washington.

Beyond all of this, we've enjoyed some exciting new attention from national and local media. Yachting magazine announced it was including Port Washington on its list of the 50 Best Boating Towns in America for 2012 (in fact, possibly considering it for the Top 10!). Most recently, John McGivern and his MPTV show “Around the Corner” spent four days filming here, interviewing over 20 people as part of the production of its show focusing on Port that will debut in the months to come. There will no doubt be more of Port Washington in the news as others continue to learn about and come to celebrate the quality of life that is such a differentiating factor for our city! Be on the lookout and help us spread the good word!

So again, THANK YOU! I am truly honored, proud, and privileged to be partnering with and serving on behalf of such generous, talented, and passionate people. Together, let's work to make our great city the very best it can be for all who live, work, and play here! Together, let's make Port EXCEPTIONAL!

Tom Mlada  
Mayor – City of Port Washington

**EMERALD ASH BORER ALERT!**

On Friday, June 15, 2012, the presence of the Emerald Ash Borer (EAB) was identified and confirmed in the 400 block of N. Powers St. Port Washington now joins a growing list of Wisconsin communities where the insect has been detected.

Residents should be aware that it is illegal to move firewood out of an EAB quarantined area, as that is the primary means for the EAB to spread. It is best to keep firewood onsite. Homeowners who would like more information on EAB and the quarantine area, or are interested in determining whether they have an Ash tree on their property and information on how they may protect it from the EAB should visit the State

of Wisconsin’s official website, [www.emeraldashborer.wi.gov](http://www.emeraldashborer.wi.gov), and click on the link for Homeowners. Additional information on the EAB is also available at City Hall.

In preparation for the EAB, Port Washington was one of the first Wisconsin communities to place a moratorium on planting Ash trees along city streets, dating back to 2005. Since 2002, the City has also aggressively planted new street trees, increasing the total number of street trees from approximately 5,000 trees in 2001, to more than 8,000 trees in 2012. As a percentage, Ash trees comprise 14% of the City’s street trees, (approximately 1,100 trees) with an estimated value of \$700,000. The total value of all the street trees exceeds \$4 million. Also since 2001, the City has increased the diversity of its street tree inventory and now contains over 50 different tree species.

The emerald ash borer is a major threat to Wisconsin’s trees. Our state contains more than 770 million ash trees. In all urban areas, it is estimated that one out of every five trees is an ash. With the arrival of the EAB and its potential threat to ash trees, the goal of any urban forest is to achieve tree diversity. Striving to have no more than 10% of any one species is a creditable goal for any urban forest population. Once present in an area, the EAB kills all untreated ash trees within a few years. Even young, healthy ash trees are killed within 3 – 5 years of infestation. Whenever making the choices for EAB prevention and treatment, homeowners and commercial industries should review the latest research and decision-making tools available.

**YOUR TREES NEED A DRINK!**

This summer’s extremely dry weather is very stressful on newly planted trees, especially in the difficult urban environment adjacent to our streets. Those planted by the City in the past few years are most susceptible to drought-like conditions and need your help! Please water your trees that have been planted in the last 3 years for approximately 10 minutes, once per week if it has not rained at least 1” in the previous week (overwatering can kill the tree as well).

Deep watering encourages deeper root growth, and is healthier for the tree.

Also, please do not use string trimmers around the base of any tree, as it severely damages the bark and can also kill the tree. Please help Port Washington keep green and growing.

**STORM WATER MANAGEMENT AND TREES**

Most people know that trees provide beauty, shade, and oxygen, but did you know that they also help protect our streams and lakes? Trees intercept, slow, filter, and absorb storm water – water that would otherwise run off into storm sewers, lakes, and streams. Planting trees, maintaining green space and reducing impervious surfaces such as asphalt and concrete can reduce local flooding, soil erosion, and thermal and chemical pollution of surface water. Tree planting isn’t just about beautification; it is about making a sound investment in the environmental health of our community!

**PET WASTE AND WATER QUALITY**

Pet owners, when you clean up after your pet, you are doing your part to keep our environment clean! Pet waste left on lawns gets washed into storm sewers and flows directly into Lake Michigan, negatively affecting the water quality at our beach, the aquatic life, and the quality of our City’s drinking water source. Pet waste should always be picked up as soon as possible, bagged properly, and disposed of with your garbage. Do NOT place pet waste in storm sewer inlets and catch basins. Everything that enters a catch basin flows directly into Lake Michigan. Thanks for doing your part to protect our lake!

# PLANNING & DEVELOPMENT, continued

## STH 33 – GRAND AVENUE IMPROVEMENTS

The completion date for the Wisconsin Department of Transportation reconstruction of STH 33/Grand Ave. is currently set for August 17th, weather permitting. Additional work required for the construction of the roundabout at CTH LL will result in the complete closure of STH 33 and CTH LL in all directions on July 16, beginning at 7 am, and lasting the entire day. STH 33 and CTH LL will also be closed throughout the evening and overnight hours for final paving in August for approximately one week. All traffic (including local traffic) will be restricted during those nights. Through traffic will be detoured. Specific dates have yet to be set. Please look for further information on the project's changeable message boards.

## 2012 – COAL DOCK IMPROVEMENTS

With the assistance of funding from the Wisconsin Department of Natural Resources, the Wisconsin Coastal Management Fund, and the Fund for Lake Michigan, the City of Port Washington will begin the construction of improvements to the Coal Dock by late Summer 2012, with completion sometime in Spring, 2013. Additional improvements will be made to the Coal Dock in subsequent years per The Coal Dock Master Plan (see below), which was adopted by the City in 2009. Upon completion of this year's improvements to the Coal Dock, the park will be open year round to the public.

## **FIRE DEPARTMENT OPEN HOUSE & FIRE PREVENTION WEEK 2012**

The Port Washington Fire Department invites residents to attend our Annual Open House, Sunday October 14, 2012. The Open House will be held between 9:00 a.m. to 1:00 p.m. at the fire station located at 104 W. Washington Street.

Sparky will be on hand to greet everyone and there will be plenty to see and do. Fire extinguisher demonstrations, equipment displays, and fire station tours are just some of the activities planned. Also, door prizes will be given away, including five "Ride To School in a Fire Truck" prizes.

The theme for Fire Prevention Week 2012 is: "Have 2 Ways Out". This year's campaign is designed to educate people about the importance of having an escape plan in case of a fire, and knowing two ways out of every room in your house.

### **TRASH & LEAF BURNING IS PROHIBITED**

With all the talk about the dry weather and burn bans, residents are reminded that Chapter 5.13.160 of the City Code states that all trash burning is prohibited all year long. Trash defined includes leaves, grass, branches, and yard waste, as well as rubbish, construction and industrial waste.

More information on outdoor recreational fires can be found in the Spring 2012 edition of City News on the City's web site: <http://www.ci.port-washington.wi.us/Newsletter/Index.htm>.

## **UPCOMING 2012 ELECTION'S**

- **August 14th - Partisan Primary Election**
- **November 6th - General Election (Presidential)**

By the end of 2012 we will have had 6 Elections in the City of Port Washington. We'd like to thank all of our Election Inspector's (Poll Workers) for all of their hard work and dedication. Their commitment to the Election process helps provide the City with fair and accurate elections.

### **VOTER REGISTRATION**

**Have you changed addresses or your last name since you last voted?**

If so, you will need to re-register to vote.

**Are you a first time voter in Wisconsin?**

If so, you will need to register to vote.

**What documents do I need to Register to Vote?**

If you have been provided a Wisconsin Drivers License or Wisconsin State ID Card you must use that number on your Voter Registration. Only if you have never been issued one can you use the last four digits of your Social Security number.

If you are Registering two weeks or less prior to an Election you will need Proof of Residency, which includes your full name and address on it. This may be a bank statement, utility bill or real estate tax bill. There are other forms allowed. Please contact us for a full list, if needed.

## **ABSENTEE VOTING**

**Do you need an Absentee Ballot mailed to you?**

If so, you will need to complete an Absentee Ballot Application. You must be a registered voter in the City before you can Absentee Vote.

**Can I Absentee Vote In-Person at City Hall?**

YES, two weeks prior to every election you may Absentee Vote in person at City Hall. City Hall is open Monday - Friday from 8:00 a.m. - 5:00 p.m. You must be a registered voter in the City before you can Absentee Vote.

**Where do I get information and requirements on Voter Registration and/or Absentee Voting?**

- At City Hall, 100 W. Grand Avenue
- By calling the City Clerk's Office at 262-284-5585
- By contacting the Deputy City Clerk at [swesterbeke@ci.port.wi.us](mailto:swesterbeke@ci.port.wi.us)
- By checking the City Website at [www.ci.port-washington.wi.us](http://www.ci.port-washington.wi.us) click on Elections

## **BE ON THE LOOKOUT FOR BICYCLES & PEDESTRIANS**

Along with the warm summer weather there's an increase in all types of warm weather outdoor activities. The Port Washington Police Department reminds you to be extra aware of both pedestrians and bicyclists especially throughout the warm weather months. Remember, as a general rule pedestrians and bicyclists have the right-of-way when crossing a roadway within a marked or unmarked crosswalk.

Pedestrians and bicyclists are also reminded that sudden pedestrian movement into traffic or the path of a vehicle is dangerous and prohibited. Bicyclists are considered vehicles in Wisconsin. Bicyclists are reminded to obey all traffic laws.

## **BICYCLE HELMETS REQUIRED**

The Police Department reminds parents that the City of Port requires that every person less than 16 years of age operating or riding on a bicycle on a public roadway, public sidewalk, public bicycle path or any other public right-of-way under the jurisdiction and control of the City must wear a protective helmet designed for bicycle safety. The Department encourages everyone who rides a bike to wear a helmet while challenging adults in the community to set an example by wearing an approved helmet whenever riding a bike. PARENTS – Please make sure that your children are wearing a properly fitted, fastened and approved bicycle helmet whenever they're riding their bikes . . . Safety is everyone's responsibility!

## **WATCH FOR MOTORCYCLES & SCOOTERS**

With summer weather and the ever fluctuating fuel prices, motorcycles and scooters become increasingly popular modes of transportation. Please remain alert and watch the roadway at all times for motorcycles and scooters. Studies have shown that due to their smaller size and profile, motorists just don't see motorcycles and scooters as easily as they do other types of vehicles. The most common, and most deadly, accident for motorcycle operators occurs when approaching vehicles make left-hand turns directly in front of the motorcycle. Motorists should exercise extra caution when making lane changes, left turns and proceeding from intersections. In addition, to increase visibility, Wisconsin law requires all motorcyclists to ride with their headlights on at all times. Again, please remain alert and watch the roadway at all times for motorcycles and scooters, keeping in mind they have the use of a full traffic lane just as four-wheeled vehicles do.

## **BACK TO SCHOOL SAFETY REMINDERS**

The school year officially begins on Tuesday, September 4th, 2012. So, here's an early reminder to everyone regarding traffic laws designed to protect children and students. The Port Washington Police Department asks that you drive safely throughout the city at all times, but reminds you to always be especially observant when approaching or traveling through school zones.

**Take special notice of parking restrictions posted near schools.** Parking restrictions are meant to enhance pedestrian safety (yours and your child's) in the vicinity of the school. **Obey the restrictions!**

**Reduce your speed around school properties and especially in the posted school zones.** Remember, children are children, not young adults. It's important to understand children's limitations in understanding traffic.

Specifically, children:

- Have a narrower field of vision than adults, about 1/3 less.
- Cannot easily judge a car's speed and distance.
- Assume that if they can see a car, its driver must be able to see them. However, children are easily hidden from view by parked cars and other objects.
- Cannot readily tell the direction a sound is coming from.
- May be impatient and impulsive.
- Concentrate on only one thing at a time. This is likely not to be traffic.
- Have a limited sense of danger.
- Often mix fantasy with reality.
- Imitate the (often bad) behavior of others, especially older children and adults.

**Watch for and obey adult school crossing guards and their signals. They're protecting our children!**

Wisconsin law requires every operator of a motor vehicle approaching a school crossing which is controlled by an adult school crossing guard to follow the directions of the school crossing guard. If directed by the school crossing guard to stop, the operator must stop the vehicle not less

## BACK TO SCHOOL, continued

than 10 feet or more than 30 feet from the school crossing and shall remain stopped until the school crossing guard directs the operator to proceed.

Remember; be mindful of speed limits, school zones and crossing guards. Take an extra moment in reaching your destination by slowing down and watching out for children so they too may reach their destination safely. We'll all benefit as a result!

## BE AWARE – STRANGER DANGER

With the start of a new school year upon us it's time to once again remind all parents and children about strangers and potential stranger danger as they travel to and from school, especially for those that walk to school. Parents should walk to school with their children to familiarize them with a particular route which the children should take each day. In this way, both parents and children will know the route in the event of an emergency. Children should be familiar with the route to school and the surrounding area and shouldn't deviate from that route without prior parental approval.

As parents travel the route to school with their children, they should review with them the safe places to go if a problem arises.
