Touch-a-Truck - Bounce House

The Waterfront Safety Committee came together to improve water safety in and around the Port Washington area. Increasing water safety awareness by promoting the water survival strategy

“FLIP, FLOAT, and FOLLOW,” are keys to their mission.

“Flip, Float and Follow” was created by the Michigan Sea Grant to be a simple and easy to remember technique used to help people survive in a drowning situation.

Water Safety Day is a Community Education Event to promote water safety, awareness, and preparedness - not just in our Community, but ANYWHERE that borders a body of water

The Band Shell and Greens

@ Veteran’s Memorial Park

430 North Lake Street, Port Washington
