^aProjections are based on the regional land use plan. Future populations are assigned to cities, villages, and towns based on 2000 civil division boundaries.

^bProjections were prepared using a methodology similar to that used by the Wisconsin Department of Administration, whereby population trends in each community over the past 25 years are used to project the future population. Population changes in the 1990 to 2005 period are weighted more heavily than changes between 1980 and 1990.

^cProjections are based on the regional land use plan. Future populations are assigned to cities, villages, and towns assuming that areas within a planned city or village sewer service area will be annexed by the city or village, unless a boundary agreement is in place that establishes future corporate limits (i.e. – City and Town of Port Washington).

^dIncludes the entire Village of Newburg.

^eIncludes all of Ozaukee County and the entire Village of Newburg.
